Special Use Permit

An authorization from the appropriate governmental agency to another agency or to a private operator to use publicly owned land for certain purposes. The Secretary of Agriculture and the **Forest Service** issue permits for special uses not explicitly covered by timber, mining, or grazing laws or regulations on lands in the **national forest** system. Uses must be carefully controlled and be compatible with forest policy as well as with other uses. Commercial users pay a fair market fee to mine stone and gravel, operate ski areas, conduct sporting and planned **recreation** events, and construct rights-of-way, pipelines, power lines, and microwave stations. Other special uses include archeological explorations and leases for public buildings and summer homes.
